

Yesterday the Statue of Liberty, Today the Mother of Humanity® Monument

(Official message from ARK Jammers Connection, Inc.)

Year 1865:

French abolitionist and Chair of the French Anti-Slavery Society Edouard de Laboulaye and sculptor Frederic Auguste Bartholdi launched an initiative to build the Statue of Liberty as a gift from the people of France to the people of the United States of America, to celebrate the end of slavery in the United States.

On October 28, 1886, with the funds raised from across French society (from the elites to the schoolchildren and ordinary citizens, etc...), the Statue of Liberty (Liberty Enlightening the World - La Liberté Eclairant Le Monde) was unveiled at Liberty Island, Manhattan, New York City, New, York, United States!

Year 2016 (151 years later!):

The Statue of Liberty, now an American icon and a UNESCO World Heritage Site, still stands as a welcoming site to immigrants arriving from abroad, and still brings millions of visitors to New York every year.

Year 2014:

Nijel Binns, originator as well as sculptor of the Mother of Humanity®, launched a global initiative in Los Angeles, California, to create the Mother of Humanity® Monument, as a gift from the grateful Sons and Daughters of Humanity™ in America and the world, to the people of Africa, to thank Africa and its people for their immense contribution to the construction of the world.

In 2020, with funds raised from elites, youth and ordinary citizens in the US, North, Central and South America, in Europe and in Asia, the Mother of Humanity® Monument will be unveiled for the benefit of the entire African continent in Kribi, Cameroon, a country described as “Africa in miniature” or “a whole continent in one country”.

Year 2171 (in 151 years!):

It is our hope that the Mother of Humanity® Monument, a then African Icon and a UNESCO World Heritage Site, will still stand as a symbol of the original African mother who gave birth to all the nations of the earth, and who will always remind us that beyond differences of language, race, ethnicity, gender, religion, culture, and nation, we all are children of the same original Mother, and we must learn to peacefully coexist as one human family”

The ARK Jammers for the Mother of Humanity® Monument

The ARK Jammers salute Nijel Binns for his visionary initiative!

The ARK Jammers congratulate Cameroon for being selected as the future home and site for the Mother of Humanity® Monument and Motherland™ - a Themed Park!

The ARK Jammers are engaged in supporting the MoH® project, which we see as an initiative that will transform the world’s relationship with Africa, change the narrative on this great continent, and recast its future in an entirely new and more positive light!
